

## Week 10 Report: Dissertation Writing

Project: Determining the Role of Big Data Applications in Fraud Detection and Financial Security in Financial Institutions of Ireland

Student: Yashwanth

Supervisor: Dr. Prasanth Nayak

### What I did this week

This week I wrote the introduction, literature review and methodology chapters of the dissertation. The literature review uses the fifteen checked papers from Weeks 1 and 2. The methodology explains the dataset, the duplicate removal, the single stratified split, the tuning, the imbalance strategies and the evaluation measures, so that the study can be repeated exactly.

| Chapter                         | Status    |
|---------------------------------|-----------|
| 1. Introduction                 | Drafted   |
| 2. Literature review            | Drafted   |
| 3. Methodology                  | Drafted   |
| 4. Implementation               | Next week |
| 5. Evaluation                   | Next week |
| 6. Discussion and 7. Conclusion | Next week |

### Next week

Write the implementation, evaluation, discussion and conclusion chapters.
